	IBM SECURITY i2 ANALYST’S NOTEBOOK	MALTEGO
DEVELOPER	IBM	Paterva
PLATFORM OVERVIEW	IBM Security i2 Analyst’s Notebook Premium is a visual analysis tool for turning data into intelligence. The platform helps the user to overcome the multifaceted challenges involved in discovering networks, patterns, and trends within their data. With an intuitive interface, the platform offers rich analysis and collaboration tools, saving time throughout complex analysis processes. In combination with SL Pro, the platform becomes a powerful and dynamic instrument for intelligence.	Maltego is an open-source intelligence and graphical link analysis tool for gathering and connecting information for investigative tasks. The platform offers incredible opportunities for data enrichment using a wide range of sources including commercial plugins, such as SL Pro. Working with Maltego & SL Pro drastically saves time and facilitates digital investigations for both small businesses and LEA departments, as well as a broad range of other users.
